OBJECTIVE

As an aspiring computer science graduate 2024, I am deeply passionate about technology and coding. My adeptness covers various programming languages, refined through hands-on projects, notably in ML and Python. Seeking chances to apply my skills, I am committed to contributing to the dynamic field of computer science, all the while nurturing my own development and advancement.

SKILLS

PYTHON , ML , PHP , CSS , HTML

C , C++ , SQL

JAVA , JAVA SCRIPT , NODE JS

WORK EXPERIENCE

1. ML And Data Science

I have Join as intern in upflairs which is associated with poornima institute of engineering and technology and xpecto IIT Mandi .In addition to my studies, i has also gained experience through upflairs, where i worked as learner .

ACHIEVEMENTS & AWARDS

- Summer Internship on ML AND DATA SCIENCE
- NPTEL Certificate on Programming in Java .
- Microsoft Azure Data Fundamentals .

EDUCATION

2024

Poorniman Institute of Engineering and Technology
B.Tech

2019

Sri Chaitanya Videa Niketan
Vishakhapatnam
12th

2017

New Holy Ganges Public
School
10th

LANGUAGE

English , Hindi

INTERSHIP

- MACHINE LEARNING AND DATA SCIENCE
- PYTHON BASICS

PROJECTS

1. Sentiment Analysis of Tweets

Developed a web application for sentiment analysis of tweets using ML techniques.

2. Attendance System using Face Detection

Automated system utilizing face detection for attendance management, enhancing accuracy and efficiency in tracking attendance records.

3. Chatbot

Created a web-based chatbot with NLP algorithms, incorporating database connectivity and end-to-end encrypted messaging.

WORKSHOP

- Game Development
- Ethical Hacking And Cyber Security

PUBLICATIONS

- Blood Donation On Covid , Battling Of Crisis
